Dear Paul, Tuesday 11/12/68

By now, having received my mailing of a few items, you should have noted my presence in Dallas. I was brought here by the man you wanted under least likely of all could have a good, cooperative relationship established with his chief of security. Any further information will have to await our next meeting. Tell Ruth Hal said hello in confidence.

Tomorrow I have appointments to see Curry Wade, Zapruder & others. It will be a full day. I'll expect phone calls tonight from others I want to see. Jim just phoned from N.O. to ask me to return that way, as Wood did earlier tonight, to Oswald. He says he has made a breakthrough he wants to share with me. I believe it is in the N.O. area, one having to do with the house and the other with literature.

I know there is something from you awaiting me at home. There is also a very high stack of other mail. Will clean it all up as fast as I can when I get home. I had been due to return today, had not expected to come here.

Hope you can read this. Best to you all

Hal
